Nov. 4, 2008 -- *The Allstate Best Drivers Report is produced solely to boost the country's discussion about safe driving and to increase awareness of the importance of being tolerant and attentive behind the wheel. The report is not used to determine auto insurance rates. A state specific adjustment was utilized for the Michigan cities to account for the unique coverage offered in that state.*

** MI cities exclude Limited Property Protection and Supplemental Damage to Property Coverages (BT and BV respectively).*
