This presentation contains forward-looking statements and information. Additional information on factors that could cause results to differ materially from those projected in this presentation is available in the 2018 Form 10-K, in our most recent earnings release, and at the end of these slides. These materials are available on our website, www.allstateinvestors.com, under the “Financials” link.

This presentation also contains some non-GAAP measures that are denoted with an asterisk. You can find the reconciliation of those measures to GAAP measures within our most recent earnings release or investor supplement. These materials are available on our website, www.allstateinvestors.com, under the “Financials” link.

Allstate Life and Benefits Generated Attractive Returns; Allstate Annuities Impacted by Lower Performance-based Investment Income

- Allstate Life adjusted net income was higher in 2018 as a lower effective tax rate and higher premiums more than offset higher contract benefits.

- Allstate Benefits adjusted net income was higher in 2018 due to increased premiums and a lower effective tax rate.

- Allstate Annuities adjusted net income was impacted by lower performance-based investment income.
### Service Businesses Results

<table>

<td>70.5%</td>
</tr>
</tbody>
</table>

\(^{(1)}\) Service Businesses revenues include insurance premiums, intersegment insurance premiums and service fees, net investment income, other revenue and realized capital gains (losses). Intersegment insurance premiums and service fees are primarily related to Allstate Roadside Services and Arity and are eliminated in the consolidated financial statements.

\(^{(2)}\) As a result of the adoption of the revenue from contracts with customers accounting standard on January 1, 2018, SquareTrade recognized $21 million, $24 million, $26 million and $30 million in the fourth, third, second and first quarter of 2018, respectively, of net premiums earned with a corresponding increase in amortization of deferred policy acquisition costs related to protection plans sold directly to retailers prior to January 1, 2018, for which SquareTrade is deemed to be the principal in the transaction.

### Policies in force grew to 74.2 million, 68% organic growth in 2018, led by SquareTrade

- Accelerated expansion into identity protection by completing acquisition of InfoArmor, adding over 1 million policies in force
Allstate Has Nine Years of Telematics Experience with Customer Value Propositions Across Our Brands

- 4 Canadian provinces
- 6 states
- 50 states + D.C.

*States and Canadian provinces as of year-end 2018.*
Customers are getting increasingly more comfortable with telematics, particularly when they see value in the connection.

**TRADITIONAL**
- Who are you?
- Where do you live?

**TELEMATICS**
- How do you actually drive?
- Where, when and how much do you drive?

**Auto Pricing**
- Infrequent interactions / low touchpoint
- Frequent interactions / high touchpoint

**Customer Experience**
- General maintenance notifications
- Information to improve driving and raise awareness of safety issues and car health insights with linkage to repairs

**Advantages**
- Increased accuracy
- Lower subsidization between risks
- Personalized pricing

Real-time, relevant interactions for each customer.
Allstate Created Arity as an Independent Platform Company

- Strategic platform is a system of capabilities, assets, information and shared intelligence
- Platform businesses generate high economic returns
- The transportation system can benefit from a telematics/scoring platform
  - Companies can increase their speed to market
  - Data sharing will result in network effects
  - Companies can refine and customize their models to specific business needs
  - Lower costs of collecting information

### Arity Platform by the Numbers

- 12.5 million active telematics connections
- Over 300 driving trips analyzed every second
- Proprietary driving score including distracted driving approved for use by insurers in 32 states
- Licensed to operate as a Ratings Services Organization
- 85 billion miles of driving data analyzed through 2018, with 10 billion more added each month
Allstate Is a Customer-focused Data and Technology Company

Building an Integrated Digital Enterprise (IDE) to profitably deliver innovative products and services to exceed customer needs, leveraging existing assets and capabilities

<table>

Raymond James Institutional Investors Conference: March 4, 2019
Allstate is an Attractive Investment Opportunity

- Allstate trades at a valuation discount to peers despite strong results
- Operational excellence generates attractive returns
- Competitively differentiated strategy creates long-term growth
- Strategic capital management enhances shareholder value

![Allstate Valuation vs. Peers](image)

Forward-Looking Statements

This presentation contains “forward-looking statements” that anticipate results based on our estimates, assumptions and plans that are subject to uncertainty. These statements are made subject to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements do not relate strictly to historical or current facts and may be identified by their use of words like “plans,” “seeks,” “expects,” “will,” “should,” “anticipates,” “estimates,” “intends,” “believes,” “likely,” “targets” and other words with similar meanings. We believe these statements are based on reasonable estimates, assumptions and plans. However, if the estimates, assumptions or plans underlying the forward-looking statements prove inaccurate or if other risks or uncertainties arise, actual results could differ materially from those communicated in these forward-looking statements. Factors that could cause actual results to differ materially from those expressed in, or implied by, the forward-looking statements include risks related to: (1) adverse changes in the nature and level of catastrophes and severe weather events; (2) our catastrophe management strategy on premium growth; (3) unexpected increases in the frequency or severity of claims; (4) the cyclical nature of the property and casualty businesses; (5) the availability of reinsurance at current levels and prices; (6) risk of our reinsurers; (7) changing climate and weather conditions; (8) changes in underwriting and actual experience; (9) changes in reserve estimates; (10) changes in estimates of profitability on interest-sensitive life products; (11) conditions in the global economy and capital markets; (12) a downgrade in financial strength ratings; (13) the effect of adverse capital and credit market conditions; (14) possible impairments in the value of goodwill; (15) the realization of deferred tax assets; (16) restrictions on our subsidiaries’ ability to pay dividends; (17) restrictions under the terms of certain of our securities on our ability to pay dividends or repurchase our stock; (18) market risk and declines in credit quality relating to our investment portfolio; (19) our subjective determination of the amount of realized capital losses recorded for impairments of our investments and the fair value of our fixed income and equity securities; (20) the influence of changes in market interest rates or performance-based investment returns on our annuity business; (21) impacts of new or changing technologies on our business; (22) failure in cyber or other information security controls, as well as the occurrence of events unanticipated in our disaster recovery systems and business continuity planning; (23) misconduct or fraudulent acts by employees, agents and third parties; (24) the impact of a large scale pandemic, the threat or occurrence of terrorism or military action; (25) loss of key vendor relationships or failure of a vendor to protect confidential, proprietary and personal information; (26) intellectual property infringement, misappropriation and third party claims; (27) regulatory changes, including limitations on rate increases and requirements to underwrite business and participate in loss sharing arrangements; (28) regulatory reforms and restrictive regulations; (29) changes in tax laws; (30) our ability to mitigate the capital impact associated with statutory reserving and capital requirements; (31) changes in accounting standards; (32) losses from legal and regulatory actions; (33) our participation in indemnification programs, including state industry pools and facilities; (34) impacts from the Covered Agreement, including changes in state insurance laws; (35) competition in the insurance industry and impact of new or changing technologies; (36) market convergence and regulatory changes on our risk segmentation and pricing; (37) acquisitions and divestitures of businesses; and (38) reducing our concentration in spread-based business and exiting certain distribution channels. Additional information concerning these and other factors may be found in our filings with the Securities and Exchange Commission, including the “Risk Factors” section in our most recent annual report on Form 10-K. Forward-looking statements are as of the date on which they are made, and we assume no obligation to update or revise any forward-looking statement.
